# Salaries and Wages Information

Presented in this volume are the complete and detailed data on approved staffing for State agencies. For each State agency the information is reported for the 1983–84 fiscal year on an actual basis and for 1984–85 and 1985–86 on an authorized basis. A more thorough explanation of the content and interpretation of this supplement is given below and on the immediately following pages.

### *Position Titles*

In this volume, positions included in State civil service have been listed by the official class titles established by the State Personnel Board. Positions exempt from civil service have been listed by the official class titles established by statute, the Regents of the University of California, the Trustees of the California State University or other authority designated by law. Position titles are generally abbreviated to save space. A table of abbreviations follows this presentation.

### *Authorized Positions*

For the 1984–85 and 1985–86 fiscal years, positions reported as *authorized* are those which were included in the 1984–85 Budget as approved by the Legislature and the Governor. Exceptions to this rule are explained by footnote in all cases other than technical adjustments of position classification to more accurately reflect assigned duties.

### *Changes in Authorized Positions*

Proposed "Changes in Authorized Positions" are included in the Budget. These changes are proposed by the Executive Branch and are listed under "Workload and Administrative Adjustments," and "Proposed New Positions."

Modifications to these changes as a result of legislative review and final action by the Governor will be reflected in the Final Change Book.

### *Expenditures*

For the 1983–84 fiscal year *actual* salary expenditures are reported. Estimated salary payments reported for the 1984–85 and 1985–86 fiscal years *do not reflect the 1984–85 fiscal year salary increase adjustments. The dollar impact of these adjustments are reflected in the departmental budget presentations in the main Governor's Budget volume.* These estimates represent salary costs on the basis of continuous, 100 percent occupancy of all authorized positions and include the cost of merit salary adjustments where applicable. Exceptions are explained by footnote for those special cases in which the above general rule was not followed. Appropriate adjustments to recognize probable position vacancies and replacements at lower steps in salary ranges due to turnover are included in the Budget as *"estimated salary savings."*

### *Number of Positions*

For the 1983–84 fiscal year, the number of positions represents actual personnel-years of employment counted to the nearest tenth of a personnel-year. A personnel-year is equal to 12 months full-time employment of one person—12 persons employed for one month, two persons employed for six months, or any similar combination equal to one personnel-year.

Positions for 1984–85 and 1985–86 are counted to the nearest tenth and are expressed in terms of full-time, full-year equivalents. The only exception is in the case of full-time positions to be established after July 1. In such instances, the positions are counted without adjustment for delayed establishment, e.g., a full-time position to be established January 1 is counted as one position, not as 0.5 position.

### *Salary Range*

Rates of pay represent salary ranges established by the Department of Personnel Administration, statute, the Regents of the University of California, the Trustees of the California State University, the Board of Directors of the Hastings College of Law, or the Chairman of the Judicial Council. *The salary ranges in this volume do not reflect the 1984–85 fiscal year salary increase adjustment. Information on new salary ranges is available from the Department of Personnel Administration.*

The amounts shown are the minimum and maximum monthly or hourly rates, flat monthly or daily rate, or annual compensation. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

In some classifications and positions with unusual conditions of work or where it is necessary to meet prevailing rates or practices, more than one salary range, or rate or method of compensation has been established within a class. These "alternate ranges" and the criteria for their application are established by the Department of Personnel Administration and/or the State Personnel Board. For classes which have alternate ranges, salaries indicated in this supplement show the minimum step of the lowest range and the maximum step of the highest range.

Under the pay plan adopted by the Department of Personnel Administration, the intermediate steps in each salary range generally approximate five percent. Some exceptions occur in hourly and daily rate ranges. Thus, $1,067–1,229 indicates a monthly salary range having steps of $1,067–$1,103–$1,144–$1,186–$1,229.

### *Merit Salary Adjustments*

Subject to availability of funds, Section 19832 of the Government Code provides that each civil service employee receive a merit salary increase of one intermediate step in the employee's salary range during each year in a position until reaching maximum. However, this increase is contingent on the employing agency certifying that the employee's job performance meets the level of quality and quantity expected by the agency considering the employee's experience in the position.

Merit salary adjustments for employees of the University of California and the California State University are determined in accordance with rules established by the regents and the trustees, respectively.

### *Special In-grade Salary Adjustments*

Classes meeting prescribed criteria are eligible for special in-grade salary adjustments; that is, from the first step to the second step of a salary range at the end of six monthly pay periods. These special adjustments are applicable only to the lower paid positions and certain others where there is difficulty in recruiting and retaining employees.

### *Salary Range Adjustments*

Salary range adjustments for rank and file employees are adopted by the Department of Personnel Administration based on a ratified memorandum of understanding for each of 20 bargaining units and certification by the Department of Finance that sufficient funds are available.

In determining the appropriate salary level for non-represented classes, a number of factors are taken into consideration by the Department of Personnel Administration such as, but not limited to:

1. Rates of pay of private employers and of other public jurisdictions for comparable work,
2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty, or responsibility of the work,
3. Conditions of work in the class, and
4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of casually employed trades workers in State service are established at the hourly wage prevailing in the locality in which the employee is to work. These employees receive all the collateral benefits of premium pay for night work, travel time, overtime pay, hospital, surgical and medical insurance benefits prevailing in comparable employment within the locality.

Casually employed tradesworkers working for the State do not receive the same benefits of vacation, sick leave and retirement that permanent State employees receive. However, the State does pay into vacation and retirement funds where such benefits prevail in the locality of work.

The salary ranges reported herein are those which were approved by the appropriate salary fixing authority effective January 1, 1984. Salaries fixed by statute are those established primarily in Government Code Sections 11550 to 11563 inclusive, adjusted in accordance with the methodology prescribed in Section 11569. Statutory salary provisions for judges, justices, and related classes are included in Government Code Sections 68203 and 71702 and Labor Code Section 112.

Section 12, Article V of the Constitution prohibits a change in the salaries of the Governor, the Lieutenant Governor, the Attorney General, the State Controller, Secretary of State, Superintendent of Public Instruction and the State Treasurer during a term in office. On January 9, 1979, concurrent with the beginning of new terms of office, new salaries for the Lieutenant Governor, the Attorney General, the State Controller, the Secretary of State, the Superintendent of Public Instruction and the State Treasurer went into effect in accordance with Chapter 1099, Statutes of 1977.
